To Whom it May Concern:

It is my pleasure to provide a personal recommendation for Christopher Jordan. I came to know Chris when I had the opportunity of working with him at the Council for Advancement and Support of Education (CASE) in Washington, DC. For three and a half years, both Chris and I were employed as part of a larger Communications division team where we served as web designers. I came to not only know Chris personally, but professionally, and have an in depth knowledge of his technical skills as well as his performance as part of a larger team.

Chris is a professional, senior web designer of the highest caliber, whose knowledge of web design, search engine optimization and web marketing helped make every web project at CASE a great success. Chris has an outstanding sense of design, and all of the work he produced at CASE was both engaging and followed best web practice. Chris personally came up with the entire marketing theme and web site for the Annual Assembly at CASE. His marketing research and design work was top notch, pleasing not only his coworkers, but also the Board of Directors at CASE.

Chris was always reliable and consistent in his work ethic and was a solid contributor to the team. He takes ownership of all his projects, and works well independently. Chris has a commitment to excellence in his work, and his honesty and friendliness to all those around him make him a joy to work with. He is extremely positive, and it shows in his work. It was truly a privilege to work with Chris, and I think I am a better web designer today in having had the opportunity to work with him.

I give Chris my highest recommendation. If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.

Sincerely,
Natalie Lestini
Senior Web Designer
